Since 1972, the company is based in Perigord region, and prepares for your pleasure high quality products. The workforce is around 6 to 12 persons, managed by Marion Ginebre-Zanatta and Claude Ginebre, his father, the founder of the company, and the products are sold on 3 continents: Europe, Asia, America

Our Chocolates

Our chocolates are confectioned with dried fruits such as walnuts, hazelnuts, almonds, and also dried prunes, mango, raisins, chesnuts...

We only use pure cocoa butter chocolate, and no ingredients from animal origin.

The dark chocolate has been strictly selected for great taste and quality.

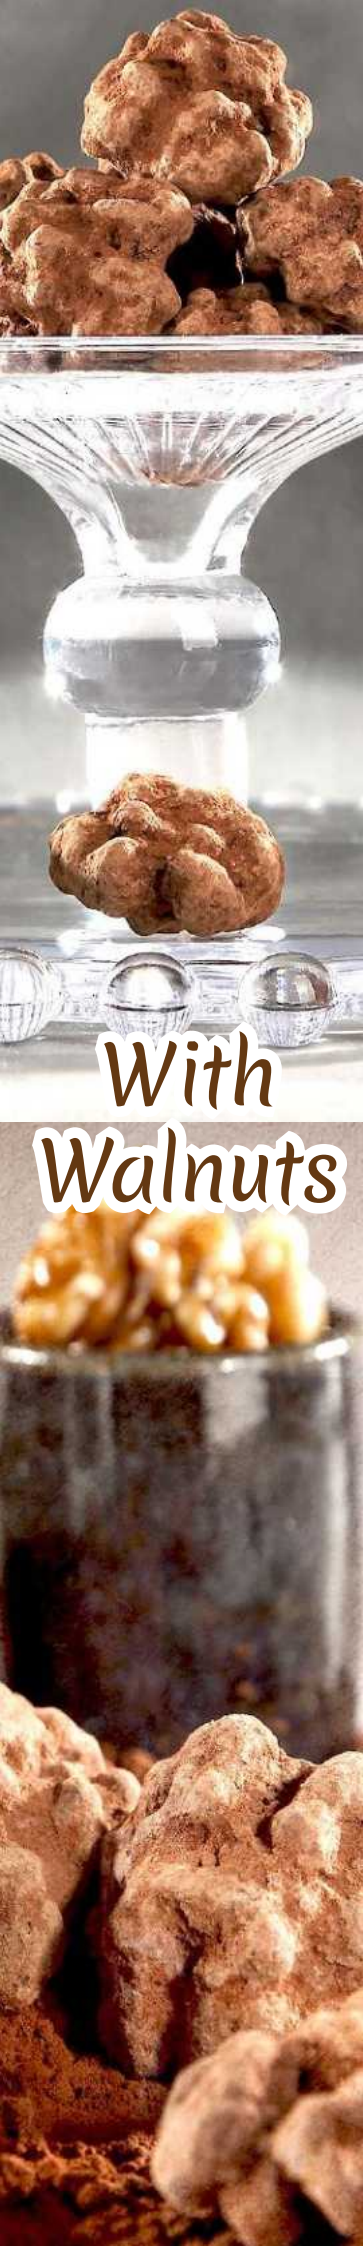

We also produce a range of raw materials for pastry, such as pastes and confectioned walnut kernels

We can propose you several different packagings, so you will find the most suitable for your retail or distributor activity.
